

CHAPTER 17.15

SAND AND GRAVEL OVERLAY ZONE (SGO)

17.15.010: PURPOSE:

The purposes of the sand and gravel overlay zone are:

- A. To provide areas to promote and protect the opportunities for the extraction of mineral resources which are necessary to the continued economic development of the county;
- B. To inform current and potential residents of the county of the possible location of future mineral extraction locations;
- C. To help identify locations within which mineral extraction may occur throughout the county. (Ord. 2006-12, 9-26-2006)

17.15.020: DEVELOPMENT STANDARDS:

Refer to the base zoning district for all use, setback, area and lot width, building height, and vehicular circulation and parking requirements. The sand and gravel overlay zone shall not impose any greater requirements for site development than those that currently exist within this chapter. See the mineral extraction and excavation zone (chapter 17.13 of this title) for all requirements. (Ord. 2006-12, 9-26-2006)

17.15.030: MINERAL EXTRACTION OPERATIONS:

Within the area zoned sand and gravel overlay in Cache County, there is the potential of mineral extraction activities occurring. (Ord. 2006-12, 9-26-2006)
